Time and the other is a story of love and the terrible and slow rupture of a couple, viewed from the subjective angle of one of the lovers. That experience is expressed in the absence of *the other*. We never see or recognize him, though he's always there. His presence is obvious through his absence, through the traces left by his body. The book is made of three parts (*Embrace* and *Sleep* and *Lost Chords*), it also includes a DVD with two videos *Embrace* and *Sleep*.
